## My NHA Intern Experience

My experience here at NHA has opened my eyes to a lot; I've learned and I've grown. Working for NHA has helped me in a BIG way. I've learned it's always important to put your priorities first, even when you "don't feel like it" you must. In the end, it'll all pay off. It's important to be educated and prepare yourself for the real world. When my adult time comes, I know I'll be advanced and prepared because of my experience here at NHA. This is something I find an interest in, and I'd like to work in an office when I grow older; so, I can say this was just basically training. This experience is something that I won't forget or regret because I've matured during my time here. My first day I walked in clueless and a little scared and now I'm leaving with many morals, pride, memories, but most importantly more wisdom. I used to doubt if I could do certain things, but here at NHA they taught and showed me anything is possible. Here at NHA, they made me feel comfortable, as if I was family. Not only did I enjoy just having the job, I enjoyed learning what it takes to be an independent adult. There were days when I just wanted to rest, thankfully I didn't because honestly everything paid off and now I'm leaving as a better person and thankful. My days being an intern here were amazing and I'd do it all over again the same way. Thank you NHA for giving me such a great experience here.
